Subject: Schedule -draft program review slides for Q3 PIDs due May 9
[Monthly Chemical Meeting Q3 comments 4 20 17 9 am.pptx](#)
[1 Monthly Chemical Meeting Q2 03 07 17 final.pptx](#)

Hi CRMs,

Just wanted to make sure everyone received the email regarding the next Monthly Chemical Review (see below) and alert you to the tight schedule. To meet the May 9 deadline for draft slide content, I suggest drafting the content and circulating it to the team this week in order to give enough time for team review.

Here's the schedule :

May 9 – CRMs to send me slide content per chemical (**team-reviewed**)

May 10 – I'll assemble the material into a presentation (and format it) prior to a dry run

May 11 – dry run with CRMs, TLs, SRAs

May 11-12 – I'll make edits, as needed, as result of dry run

May 11 - 15 – provide slides to Yu-Ting and Billy

May 16-17 – make edits as comments are received

May 18 – presentation

Edits/updates can be made, as needed, up until May 18 (e.g., SUs likely will have changes), but there's lots to be done within the next 2 weeks to finalize the presentation, so hopefully this schedule will get us there.

Thanks, all!

Carolyn Schroeder

Subject: draft program review slides for Q3 PIDs due May 9

FYI – I had you on the invitation for the dry run on May 11, but not the call to CRMs to start developing slides.

Subject: draft program review slides for Q3 PIDs due May 9

Hello CRMs and TLs,

It's time to prepare for the next monthly program review, scheduled for **May 18**. PRD's presentation will cover Proposed Interim Decisions (PIDs) anticipated for quarter 3 (see list at bottom of email and let me know if there are edits).

In order to have the slides ready for management review by May 15 (estimate), I request that CRMs **draft the slides and have them team reviewed by COB Tuesday, May 9**.

I will aim to schedule a **dry run with TLs and CRMs for Thursday, May 11**. We expect CRMs will be presenting their chemicals.

To facilitate the review, please draft the slide content in Word and then send to your team for their review. This will allow for easy editing (i.e., tracked changes).

Once reviewed by your team and TL, please send the draft slide to me –via email, Word or PowerPoint. I'll be formatting for consistency prior to our dry run. However, please take a look at the attached March slides for content, level of detail, length, and format. Try to limit your slides to 3 or under (although there's flexibility for special cases).

General outline for slides

Background (include use sites)

Risk summary - Human health risks, Ecological risks

Benefits

Risk management approach/proposed decision

Thanks, everyone, in advance for your help in putting this together! Please let me know if you have any questions.
